- Comes with a cardboard box

Calibre 12 Magnum.

The **Fabarm STF 12 Short Compact Viper** is a **12/76 mm caliber pump-action shotgun**, offering great versatility for various professional applications. Its 36 cm barrel has an 18.4 mm bore, ensuring optimum accuracy during interventions. The anti-reflective finish of the barrel reduces the risk of detection in an operational environment.

Choke INNER HP ACCURACY.

The rifle is equipped with an INNER HP ACCURACY choke, allowing to modify the dispersion of the projectiles for increased accuracy. The total capacity is 5+1 shots, providing adequate firepower for critical situations. The fixed composite stock, with a length of 320 mm, ensures a stable and comfortable grip.

Ergal frame.

The **ERGAL 55** carcass, an aluminum alloy used for its lightness and mechanical resistance, is protected by a Cerakote Flat Earth finish, offering increased resistance to harsh environmental conditions.

Detachable sights.

The sights, consisting of a **detachable diopter** and front sight, allow rapid target acquisition.

Mil-Spec Standard.

The rifle also features a **muzzle brake** and **MIL-STD 1913 Picatinny rails** on the top and under the foregrip, making it easy to add accessories such as optics or tactical lights. With an overall length of 84 cm

and optimized weight, the STF 12 Compact Viper is designed for exceptional maneuverability in tight environments.

Tested steel balls.

Thanks to Fabarm's 1630 Bar test, the STF 12 Compact Viper is compatible with **High Performance steel ball cartridges**.
