The tactical cover for FABARM PROFESSIONAL STF12 is the essential accessory for any professional wishing to transport and protect their weapon efficiently and discreetly.

This case is specially designed to accommodate all STF12 rifle models, regardless of barrel length. Made of sturdy 600 Denier polyester, it features reinforced handles and two compartments equipped with Velcro straps. An internal padded divider protects your weapon and its accessories from shocks and friction.

- Compatible with all barrel lengths and all STF 12 models
- High quality 600 Denier polyester outer fabric
- Protects against shocks and humidity
- 2 main compartments for storing the disassembled shotgun
- Internal straps for holding the weapon and elements
- Carrying handle
- Dimensions: 860 mm x 260 mm

Design and technical characteristics

The Fabarm tactical case for STF12 is designed to provide maximum protection for your weapon while facilitating its transport. The 600 Denier polyester used ensures high resistance to wear and harsh outdoor conditions. The reinforced handles guarantee a comfortable and secure grip. The two internal compartments, equipped with velcro straps, firmly hold the rifle and its components in place, preventing any unwanted movement. The internal padded divider prevents direct contact between the weapon and accessories, thus minimizing the risk of scratches or damage. The dimensions of the case (860 mm x 260 mm) are optimized to fit all configurations of the STF12, offering a compact and efficient transport solution.

Technical lexicon

- **600 Denier Polyester** : Synthetic fabric known for its strength and abrasion resistance, commonly used in tactical equipment.

- **Straps with Velcro** : Straps equipped with Velcro closures, allowing the contents to be firmly secured and the fastening to be easily adjusted.
- **Padded divider** : Internal padded partition used to protect the different parts of the weapon and its accessories by avoiding shocks and friction.

Standards and certifications

Although this case is not specifically certified to military standards, its design meets the high demands of security professionals and law enforcement. Fabarm is committed to providing high quality products, tested to ensure reliable performance in a variety of operational conditions.

Care and use tips

To ensure the longevity and effectiveness of your Fabarm tactical cover:

- **Cleaning** : Use a damp cloth to remove dirt and stains. Avoid harsh chemicals that may damage the material.
- **Drying** : After cleaning, allow the cover to air dry in a well-ventilated area, away from direct sunlight to prevent fading.
- **Storage** : Store the case in a dry place when not in use. Make sure the inside is clean and dry before inserting your weapon to prevent mold or corrosion.
- **Regular Inspection** : Periodically check the condition of seams, zippers and Velcro straps. If there are signs of wear or damage, consider repair or replacement to maintain optimal protection of your equipment.

Comparison with other similar products

Compared to the **Fabarm Commando Bag** , the STF12 Tactical Pouch offers a more compact solution, suitable for situations requiring discreet and lightweight transport. While the Commando Bag offers shoulder straps for backpack-style carrying, the Tactical Pouch favours reinforced handles for hand-carrying. Both products are made of 600 Denier polyester, ensuring robust protection, but the choice between one or the other will depend on carrying preferences and specific mobility and accessibility needs.
