The Steyr AUG A3 SA SE has a 1.5x scope integrated into the handle, 60mm high.

The Steyr AUG A3 SA SE is the civilian version of the legendary Austrian assault rifle, equipped with an integrated 1.5x scope for rapid target acquisition. Featuring a 55 cm cold-hammered and chrome-plated barrel, it guarantees exceptional accuracy. Its bullpup design reduces the overall length to 83 cm, offering optimum handling without compromising performance. The transparent polymer magazine facilitates visual control of remaining ammunition. Ideal for precision sport shooting, tactical competitions and interventions requiring a compact and reliable weapon with integrated optics.

Integrated 1.5x Scope

The 1.5x fixed scope integrated into the carry handle offers a circular reticle for fast and accurate target acquisition, ideal for short and medium range engagements. This integration ensures perfect alignment between the optic and the barrel, eliminating potential offset issues.

Materials and Sustainability

The barrel is forged and cold hammered, then chrome plated, ensuring increased durability and resistance to wear and corrosion. The stock and body of the weapon are made of high-quality polymer, offering a

combination of lightness and robustness.

Ergonomics and Modularity

The Steyr AUG A3 SA SE is designed to be ambidextrous, with controls easily accessible for both right- and left-handed shooters. The 70mm Picatinny rail located above the scope allows for the addition of additional accessories such as holographic sights or tactical lights.

Comparison with Other Models

Compared to the 3x scope version, this 1.5x variant offers a wider field of view, facilitating rapid target acquisition at close range. It is therefore particularly suitable for scenarios requiring increased responsiveness.

Maintenance Tips

To maintain optimum performance, it is recommended to clean the barrel and internal mechanisms regularly, especially after intensive shooting sessions. Using proper lubricants will help prevent premature wear of moving parts.

In summary, the Steyr AUG A3 SA SE with 1.5x scope is a semi-automatic rifle combining innovative design, precision and versatility, meeting the requirements of sports and tactical shooting professionals.
