Modular design with improved ergonomics for optimal performance in sport and professional shooting.

The Steyr L9-A2 MF is a 9x19mm semi-automatic pistol, designed to deliver exceptional accuracy and reliability. Featuring a 115mm barrel and a total length of 200mm, it features advanced ergonomics with a fully adjustable grip with interchangeable backstraps and side panels. Equipped with a Picatinny rail (MilStd. 1913) at the front, it allows for easy addition of tactical accessories. Its standard capacity is 17 rounds, with an option for 10-round magazines. The "Reset Action System" trigger system ensures precise and responsive shooting, while integrated safeties guarantee safe handling.

Modular Design and Ergonomics

The Steyr L9-A2 MF is distinguished by its modular design, allowing users to adjust the grip to their preferences thanks to interchangeable back and side panels. This customization ensures optimal grip, improving control and accuracy when shooting. The integrated Picatinny rail offers the possibility of

mounting various tactical accessories, such as lights or lasers, thus increasing the versatility of the weapon.

Security Systems

Safety is paramount in the design of the L9-A2 MF. The pistol is equipped with a trigger safety and a drop safety, with an option for a manual trigger safety. These features ensure safe handling, reducing the risk of accidental discharges.

Comparison with other Similar Products

Compared to previous Steyr models, the L9-A2 MF offers improved ergonomics and increased modularity. Interchangeable side panels and backs allow for customization that previous versions did not offer. Additionally, the standard Picatinny rail makes it easy to add accessories, increasing the weapon's flexibility for various professional applications.

Maintenance Tips

To maintain the optimum performance of your Steyr L9-A2 MF, it is recommended that you clean the weapon regularly after each use. Use proper firearm cleaning products and be sure to lubricate moving parts to prevent premature wear. Proper maintenance ensures increased longevity and reliability of your pistol.

Technical Glossary

- **Picatinny rail (MilStd. 1913)** : Standardized mounting system allowing the addition of accessories such as optics, lamps or lasers.
- **Reset Action System** : Double-action trigger system offering rapid re-cocking and reduced trigger travel for more accurate shooting.
- **Interchangeable Side and Back Panels** : Modular handle elements allow for adjustment of size and shape for a customized grip.
