Maximize the capacity of your Steyr AUG with this high-performance 30-round magazine.

This genuine Steyr magazine is specially designed for the AUG rifle, offering a capacity of 30 rounds in .223 Remington (5.56x45 mm) caliber. Made of durable translucent polymer, it allows for a quick check of the remaining ammunition level. Its robust design ensures reliable feeding and long life, even under intensive use conditions.

Benefits of Translucent Polymer

The choice of a translucent polymer for the manufacture of this charger offers several advantages:

- **Visual Check** : Allows users to quickly and easily check the number of rounds remaining, improving ammunition management.
- **Lightness** : The polymer reduces the overall weight of the weapon, making it easier to handle during long shooting sessions.
- **Durability** : Resistant to shocks and harsh environmental conditions, ensuring a long charger life.

Compatibility and Installation

Designed specifically for the Steyr AUG rifle, this magazine installs easily without requiring additional modifications. Its design ensures smooth cartridge feeding, reducing the risk of jamming and ensuring optimum performance every time.

Comparison with other Chargers

Compared to traditional metal magazines, this translucent polymer model offers better visual management of ammunition and a significant weight reduction. In addition, its resistance to weather and shocks makes it particularly suitable for demanding environments.

Maintenance Tips

To keep the charger in perfect working order:

- **Regular Cleaning** : After each use, disassemble the charger and clean it with a dry cloth to remove powder and dirt residue.
- **Lubrication** : Apply a light coat of gun-specific lubricant to moving parts to ensure smooth cartridge feeding.
- **Storage** : Store the charger in a dry, moisture-free place to prevent corrosion or material deterioration.

In conclusion, the Steyr Mannlicher 30-round .223 Remington AUG magazine is an essential accessory for professionals and shooting enthusiasts, offering an ideal combination of capacity, durability and practicality.
