Tisas is back in force with its new 2011 double column magazine: the Double Stack.

The **Tisas 2011 Night Stalker Bull Barrel Full Frame 9x19** is an evolved version of the 2011, designed for performance and dynamic sport shooting. With its threaded barrel, openwork slide and platinum gray Cerakote finish, it combines modernity, robustness and unique style.

- **caliber:** 9x19 mm
- **total length:** 232.3 mm
- **height:** 154.9 mm
- **width:** 38.2 mm
- **barrel length:** 136.1 mm threaded bull barrel (1/2x28)
- **line of sight:** 165.45 mm
- **weight without charger:** 1069 g ±10 g
- **weight with full magazine:** 1370.7 g ±10 g
- **magazine capacity:** 17 rounds (double stack)
- **trigger:** removable single action
- **carcass:** forged carbon steel
- **cylinder head:** forged carbon steel, perforated
- **grip:** non-slip textured polymer
- **safeties:** ambidextrous manual safety, hammer safety, extended beavertail

The **Tisas 2011 Night Stalker Bull Barrel Full Frame** is designed to meet the needs of competitive sport shooters. Designed for TSV, it combines precision, speed and shooting comfort thanks to technical and aesthetic innovations.

Balance and ergonomics

Its full-frame frame ensures remarkable balance. The textured grip and magazine well equipped with a magwell facilitate handling and speed up reloads. The enlarged controls (slide catch, magazine release button) guarantee smooth handling. The 2011 (2K11) models use Double Stack magazines: Cartridges are stacked in two columns to increase the round capacity.

Threaded Bull Barrel

The 1/2x28 threaded **bull barrel** allows for the addition of a suppressor or specific accessories. Its thick, rigid design improves accuracy and reduces vibration, providing a consistent, stable shot.

Openwork cylinder head

The **openwork slide** reduces the weapon's weight and improves the fluidity of the firing cycle. It also contributes to a modern and aggressive design, perfectly suited to the expectations of competitors.

Optic Ready compatibility

The model is **optic-ready** and accepts an RMR-type red dot sight. The fiber optic sights, compatible with those of Glock, offer clear readability, even in varied lighting conditions.

Cerakote finish

The **platinum gray Cerakote** coating provides long-lasting protection against wear and corrosion while giving the weapon a unique aesthetic that stands out from conventional finishes.

Accessories included

Delivered in a case with a 17-round stainless steel magazine, as well as a Flunatec maintenance kit (degreaser and lubricant), the Night Stalker is ready to take its place at the shooting range.

- **Sight:** Front fiber optic / Black notched rear sight compatible with Glock
- **magwell:** integrated into the magazine well
- **trigger:** removable with interchangeable profiles
- **hammer:** openwork
- **trigger guard:** textured straight
