Versatility and shooting comfort for regular training.

Round-nosed lead cartridge for revolvers, balanced for recreational or sport shooting.

- Caliber: .38 Special
- Bullet Type: Lead Round Nose (LRN)
- Weight: 10.2 g / 158 grains
- Initial velocity: 275 m/s
- Initial energy: 386 joules
- Packaging: box of 50 cartridges

A traditional cartridge for target shooting

Perfect for training and recreational shooting, this **.38 Special with LRN bullet** combines **smooth shooting** and **correct accuracy**. Its **bare lead bullet with a rounded nose** is ideal for extended shooting sessions with .38 caliber revolvers.

Constant trajectory and moderate recoil

With a **muzzle velocity of 275 m/s** and an **energy of 386 J**, this ammunition maintains consistent performance up to 50 meters. It offers a pleasant shooting sensation thanks to its moderate recoil, suitable for beginners or experienced shooters.

Interest in round-nose lead

The LRN (Lead Round Nose) bullet features a **rounded shape** that ensures **good feeding** in revolvers, limited barrel wear, and controlled impact on paper targets. It remains an economical and functional choice for clubs and regular shooters.
