- **Handle:** Geissele A17
- **Weight:** 2.93 kg
- **Length:** 74 to 82 cm

11.5" cold hammer-forged barrel: performance and precision

Optimized for confined environments, the **CHF 11.5"** barrel features an exclusive **Geissele tapered profile** , ensuring optimal rigidity without adding weight to the front. Its **chrome-lined finish** extends its lifespan while ensuring **consistent grouping** .

Stressproof® lock and reliable cycle

The heart of this rifle lies in its **Stressproof®** bolt, made of **Carpenter 158+** steel, renowned for its exceptional fatigue resistance. This component is paired with a **Super 42® spring** and an **H3 buffer** for smooth recoil absorption.

Ergonomics and modularity of the terrain

With its 10.5" **MK16 rail** , stainless steel **QD inserts** , and **center-tab** interface, the platform offers a solid and modular mounting system. **Ambidextrous controls** and the **Geissele A17** grip ensure a quick and natural grip, even with gloves or under stress.

Nanoweapon® treatment: extreme durability

Applied at low temperatures, **Geissele's** exclusive **Nanoweapon®** coating resists corrosion and abrasion, even after heavy use. Its non-porous finish simplifies the maintenance of internal parts.

FAQ

Is this 11.5" model available for professionals in France?

Yes, this model is classified in category B. It is intended for professionals holding a valid prefectural authorization.

What are the advantages of the 11.5-inch barrel?

The 11.5" format offers a good balance between accuracy, recoil control and maneuverability in confined areas.

Is the Nanoweapon® treatment sensitive to heat?

No, it is designed to withstand high temperatures and retains its anti-wear properties after heavy use.
