- **Controls:** ambidextrous, ACH® lever, configurable security
- **Weight:** 3039 g
- **Length:** 90 cm

A 14.5" barrel for precision and versatility

The 14.5-inch **cold hammer-forged** barrel features **Geissele's** exclusive **tapered profile** , ensuring an optimal balance between strength and lightness. The **1/2x28 thread** accommodates a

welded **HUXWRX Flash Hider** , remaining within legal limits while maintaining excellent ballistic performance.

Reinforced internal system: Stressproof® and REBCG cylinder head

The rifle features the **Stressproof® bolt** , forged from **Carpenter 158+** steel and heat-treated for extended use. Combined with the **Reliability Enhanced BCG** and the **Super 42® spring** , it ensures a **smooth firing cycle** and **increased durability** .

Ambidextrous controls and field ergonomics

Designed to meet the needs of demanding operators, this version features an **Airborne ACH® lever** , a comfortable **A17 grip** , and a reliable **B5 Sopmod stock** . The ambidextrous safety allows for intuitive handling in any configuration.

Nanoweapon®: the ultimate protection

The **Nanoweapon®** treatment, exclusive **to Geissele** , coats internal parts with an **abrasion** and **corrosion-** resistant coating. Applied cold, it does not alter the metal structure and improves reliability in extreme conditions.

FAQ

Does the Super Duty MOD1 rifle comply with French standards?

Yes, this semi-automatic version complies with French legislation in category B, subject to prefectural authorization.

What is the lifespan of the Stressproof® lock?

Up to 5 times stronger than a standard mil-spec lock, thanks to the Carpenter 158+ alloy and advanced heat treatments.

Is the SSA-E X® trigger adjustable?

No, it's not adjustable. However, it offers a clean break point and excellent feel right out of the box.
