A return to the origins of the KRISS VECTOR

The **KRISS Vector SBR GEN3 5.5" Duo Tone** revisits the original Vector DNA in a semi-automatic version dedicated to **sport shooting** . Compact, responsive, and equipped with the exclusive KRISS recoil management system, it combines iconic style with modern performance.

- **Barrel:** 5.5" 4140 Chrome Moly steel, Black Nitride finish
- **Thread:** 1/2x28 (9x19mm) or .578x28RH (.45 ACP)
- **No scratches:** 1:10
- **Stock:** GEN3 skeleton telescopic type
- **Magazine compatibility:** GLOCK magazines
- **Relaxation:** single stage openwork, 0.7 mm pre-race
- **Handguard:** M-LOK
- **Controls:** Ambidextrous selector switch and charger button
- **Disassembly:** quick and tool-free using 4 pins
- **Supplied with:** 10-round magazine, flip-up sights, maintenance kit

A tribute to the original Vector

This **Duo Tone** version draws direct inspiration from the early generations that forged the model's reputation. It retains that instantly recognizable silhouette, that striking visual contrast... in short, the original spirit is alive and well. A version that will resonate instantly with enthusiasts and discerning collectors.

Optimized Super V reversing system

At the heart of the platform, the **Super V** mechanism with delayed bolt opening directs energy downwards. This principle limits muzzle rise and improves stability during **dynamic firing** . In practice, sequences are smoother, and the sights naturally return to line - a real advantage on the sporting range.

5.5" barrel and ballistic performance

The **4140 Chrome Moly steel barrel** , treated with **Black Nitride** , ensures wear resistance and longevity. The **1:10 twist rate** guarantees stability suitable for the calibers offered. Thanks to the **1/2x28** or **.578x28RH** thread, the user can attach compatible accessories in accordance with current regulations.

GEN3 ergonomics and modularity

The third generation significantly improves user comfort. The **skeletonized telescoping stock** , a nod to the very first version, combines compactness and stability. The short-travel (0.7 mm) **single-stage trigger** provides a crisp and consistent break. The **M-LOK handguard** and **interchangeable MILSPEC pistol grip** allow for extensive customization.

- **Finish:** Duo Tone (two-tone)
- **Category:** B (subject to authorization)
- **Use:** target shooting at a shooting range
- **Platform:** Vector GEN3 semi-automatic

FAQ

What are the acquisition conditions?

This model is classified in category B. Its acquisition requires a valid prefectural authorization as well as a valid sports shooting license.

Which chargers are compatible?

The platform is compatible with GLOCK magazines of the corresponding caliber (9x19mm or .45 ACP depending on the version), in compliance with the capacity authorized by regulations.

Is the disassembly complex?

No. Disassembly is quick and tool-free thanks to four pins, facilitating routine maintenance after shooting sessions.
