Improved ergonomics for the CZ Scorpion

On the field and at the shooting range, speed and fluidity of operation are crucial. This **enlarged charging handle** offers a more natural grip than the original model. Its wider profile allows for a firm contact, even with gloves, and makes maneuvers more intuitive.

Textured grip and optimal control

The **textured** surface improves grip during quick movements. You feel the difference immediately: your hand is better positioned, your movements are more secure. This reduces the risk of slipping and provides real comfort during **target shooting** sessions.

Robust hybrid construction

Machined from **high-strength polymer** , the lever body combines lightness and durability. The **steel shaft** ensures the mechanical strength required for repeated use. A perfect balance between controlled weight and robustness.

Quick and easy installation

Designed to replace the original lever, this accessory requires no modifications to the firearm. Installation is straightforward, making it an upgrade accessible to both individuals and professional workshop technicians.

- **Use:** sport shooting, training
- **Accessory type:** enlarged charging handle
- **Compatible platforms:** CZ Scorpion EVO 3 / 3+

FAQ

Does this lever require a modification to the weapon?

No. It directly replaces the original lever of the CZ Scorpion EVO 3 or 3+ without any permanent modifications.
