KIMZ062	Kimber 1911 White Dot Handlebar .180"	BF769	B	-

**.180" white dot front sight for 1911 fixed or adjustable.**

The **1911 Kimber front sight** with a **white dot** , measuring **.180"**, is designed for models equipped with a fixed or adjustable rear sight. It improves sight visibility and promotes quick and natural target acquisition.

- **Compatibility** : Platform 1911
- **Brand** : Kimber
- **Type** : White dot handlebar
- **Height** : 0.180"
- **Mount compatibility** : Fixed or adjustable

Designed for compatible 1911 rifles, this Kimber .180" front sight with a white dot optimizes visibility in various conditions. It provides an effective solution for replacing a worn front sight or adapting your sight setup.

**Height .180" suitable for standard configurations**

With a height of .180 inches, this handlebar is sized to work with fixed or adjustable risers, depending on the model specifications. A compatibility check is recommended before installation.

**White dot for rapid acquisition**

The white markings improve contrast and facilitate eye/rear/front sight alignment. In practice, this translates to faster and more intuitive target acquisition.

**Replacement and installation**

Replacing a front sight requires specialized tools and precise adjustments. To ensure proper and secure installation, the services of a qualified gunsmith are recommended.

**FAQ**

**Is this handlebar compatible with all 1911 sights?**

It is designed to work with 1911 compatible fixed or adjustable sights. You should check the exact specifications of your model before installation.

### **What is the purpose of the white dot?**

The white dot improves visual contrast and facilitates rapid acquisition of the front sight when aiming.

### **Do I need a professional for the installation?**

Mounting a front sight may require precise adjustment. It is recommended that the installation be entrusted to a qualified gunsmith.
