16 lb springs for 1911 Ultra 3" in 9mm.

The Kimber 1911 **16 lb recoil spring kit** is designed for **Ultra 3" models chambered in 9mm** . It is a direct OEM replacement to maintain consistent cycling and proper operation of compact platforms.

- **Brand** : Kimber
- **Compatibility** : 1911 Ultra 3" - 9mm
- **Power** : 16 lb
- **Type** : Recoil spring
- **Packaging** : Pack of 3 springs
- **Application** : OEM replacement

Designed for 1911 Full-Size Kimber motorcycles chambered in 10mm, this 18.5 lb recoil spring is a direct replacement that meets original specifications. It helps maintain the mechanical balance of the motorcycle.

Power suitable for 10mm

With a value of 18.5 pounds, this spring is sized to withstand the stresses inherent in the 10mm caliber in its full-size configuration. It helps maintain consistent battery power and smooth operation.

Recommended OEM replacement

The recoil spring is a wear part. Periodic replacement helps maintain cycle reliability and reduces stress on other components.

Full-size compatibility only

This model is designed for the 1911 Full-Size 10mm. The Compact, Pro, or Ultra versions require different specifications.

FAQ

Is this spring compatible with a 1911 in .45 ACP?

No, this 18.5 lb spring is specifically sized for 1911 Full-Size models in 10mm.

How often should a recoil spring be replaced?

The frequency depends on usage and firing volume. Regular checks are recommended to maintain cycle reliability.

Is this an original Kimber part?

Yes, this is a spring that conforms to Kimber OEM specifications for compatible models.
