Designed for 1911s equipped with a fixed sight cutout, this Kimber set combines a forward slant rear sight with a white dot front sight for a clear and structured sight picture.

Configuration forward slant

The forward-sloping rear sight presents a clean and functional profile. This geometry promotes smooth handling and integrates harmoniously with the lines of the 1911.

3 white dot sight

The three white dots improve contrast and facilitate sight alignment. In practice, target acquisition becomes faster and more intuitive.

Fixed cut compatibility

This kit is designed for machined slides with a standard fixed sight cutout. It is recommended to check compatibility before installation and to have the assembly performed by a qualified professional.
