- **Total length:** 780 mm
- **Weight:** 2.8 kg

A modernized AK for sport shooting

This compact platform retains the DNA of AK systems while incorporating modern advancements. On the firing range, you immediately feel the **optimized ergonomics** and improved control, especially during rapid follow-up shots.

Cold hammer-forged and nitrided barrel

The **CHF (Cold Hammer Forged) barrel** ensures excellent durability and consistent firing accuracy. Combined with surface **nitriding** , it offers increased resistance to wear and corrosion, even under heavy use.

Adjustable CRC 5002 aluminum stock

The **KRUK aluminum stock** offers a significant improvement in accuracy. Adjustable in length and height, it allows for natural eye positioning with any type of optic. Its folding design facilitates transport while maintaining exceptional rigidity.

KRUK M-LOK long-range handguard

The **M-LOK aluminum handguard** offers an extended surface area for gripping and mounting accessories. Its slim profile allows for an effective C-clamp grip, improving elevation control and transition speed.

Proven reliability type AK

Based on a **gas-operated** system, this rifle retains the legendary reliability of AK platforms. Even in challenging conditions, the cycle remains smooth and consistent, a crucial point for regular shooters.

FAQ

What are the purchase conditions?

This rifle is classified in category B. Its acquisition requires a valid prefectural authorization as well as a valid shooting license.

Can modern accessories be fitted?

Yes, the M-LOK handguard allows the installation of accessories such as a lamp, handle or bipod, and the platform accepts different optical solutions depending on the configuration.

What is the advantage of a cold hammer-forged barrel?

This process improves the durability of the barrel and ensures better shooting consistency, even after a large number of shots.
