KIMZ105	C&H 509T Optical Plate for Kimber 2K11	BF769	B	120.00 € incl. tax

CNC machined steel interface for Holosun 509T on 2K11.

The **C&H Precision optical plate** designed for the **Kimber 2K11** allows the mounting of a **Holosun 509T** standard lens. Machined from **precision steel** on HAAS CNC centers, it guarantees a precise fit and optimal stability of the optical assembly.

- **Weapon compatibility** : Kimber 2K11
- **Footprint** : Holosun 509T
- **Material** : CNC machined steel
- **Manufacturing** : HAAS centers - multiple quality controls
- **Screws supplied** : 4 screws 6-40 x .250 M3H
- **Application** : Red dot optical mount

Designed specifically for the Kimber 2K11, this C&H Precision adapter plate allows for the installation of a Holosun 509T lens with exceptionally precise adjustment. The goal is simple: to ensure rigidity, repeatability, and long-term reliability.

High-precision steel machining

Each plate is produced on HAAS CNC machines with strict tolerances. The steel offers excellent mechanical strength and limits micro-movements between the slide and the optics.

Holosun 509T compatibility

This version is dedicated to the 509T standard. The interface is sized to ensure a firm contact and consistent alignment, promoting a constant point of impact after correct assembly.

Suitable screws included

The plate is supplied with four 6-40 x .250 M3H screws, selected to ensure a secure hold when installed according to the manufacturer's recommendations.

FAQ

Is this plate compatible with headlights other than the 509T?

No, this version is specifically designed for the Holosun 509T footprint. Other optics require a dedicated plate.

Is the license plate exclusive to Kimber 2K11?

Yes, it is developed for the Kimber 2K11. Compatibility with other models is not guaranteed.

Is the screw hardware included?

Yes, four 6-40 x .250 M3H screws are included to ensure secure mounting.
