1911 removal key for full-size bushings.

The **Kimber 1911 bushing wrench** is designed to facilitate the disassembly of **full-size** models. Made of **non-marking reinforced polymer** , it allows for effective intervention without altering the weapon's finish.

- **Brand** : Kimber
- **Compatibility** : 1911 Full-Size (most standard bushings)
- **Type** : Bushing key
- **Material** : Reinforced polymer
- **Property** : Non-marking
- **Use** : Disassembly and maintenance

Designed for 1911 Full-Size rifles equipped with a standard bushing, this Kimber reinforced polymer key facilitates barrel disassembly during routine maintenance.

Designed for Full-Size Bushings

The specific shape allows the bushing to be properly engaged so that it can be rotated without excessive effort. It is compatible with most standard-sized 1911 Full-Size models.

Non-marking reinforced polymer

Unlike metal tools, reinforced polymer reduces the risk of scratches or damage to the finish. In practice, this allows for confident use, even on models with meticulous finishes.

Essential for maintenance 1911

A simple yet essential tool, the bushing wrench facilitates cleaning and maintenance operations. It contributes to controlled and safe disassembly.

FAQ

Is this key compatible with the 1911 Compact or Ultra?

It is designed primarily for 1911 Full-Size models equipped with standard bushings. Compact or Ultra versions may require a different configuration.

Is the polymer strong enough?

Yes, the reinforced polymer offers resistance suitable for repeated use while protecting the finish of the weapon.

Is this an official Kimber accessory?

Yes, this is a Kimber accessory designed to assist with the maintenance of compatible 1911 models.
