- **Brand** : Kimber
- **Compatibility** : 1911 .45 ACP (Kimber and compatible models)
- **Type** : Slide Stop / Slide Stop
- **Finish** : Black
- **Part type** : Direct OEM replacement
- **Function** : Locks the slide when the magazine is empty.

Designed for 1911 rifles chambered in .45 ACP, this black Kimber bolt stop is a replacement solution that meets the manufacturer's standards. It allows you to maintain the original configuration while ensuring reliable operation.

Essential function of the slide stop

The slide stop locks the slide in the rearward position when the magazine is empty and allows it to be released during reloading. Precise adjustment ensures proper interaction between the magazine and the slide.

.45 ACP compatibility

This model is specifically designed for 1911s in .45 ACP. It is compatible with Kimber models as well as most 1911s that meet standard dimensions.

Direct OEM replacement

Conforming to original specifications, this part allows for replacement without structural modification. To ensure safety and proper operation, installation performed or checked by a qualified gunsmith is recommended.

FAQ

Is this stop compatible with 1911s in 9mm?

No, this model is designed for 1911s chambered in .45 ACP. The 9mm versions generally have separate specifications.

Is this an original Kimber part?

Yes, this is an OEM replacement that meets Kimber specifications for compatible models.

Does the assembly require any adjustment?

A check of the dimensions and an adjustment may be necessary. It is recommended to have the installation checked by a qualified professional.
