KIMZ054	Kimber 1911 Stainless Steel Bolt Stop - 9x19 / 10 mm Auto / .40 S&W	BF769	B	58.00 € incl. tax

Slide stop Kimber 1911 stainless steel for 9mm, .38 Super, .40 S&W and 10mm.

The Kimber 1911 **stainless steel bolt catch** is designed for models chambered in **.38 Super, 9mm, .40 S&W, and 10mm**. An essential component of the operating cycle, it ensures reliable locking at the end of the magazine while providing aesthetic consistency with stainless steel configurations.

- **Brand** : Kimber
- **Compatibility** : 1911 (.38 Super, 9mm, .40 S&W, 10mm)
- **Type** : Slide Stop / Slide Stop
- **Finish** : Stainless steel
- **Function** : Locks the slide when the magazine is empty.
- **Application** : Replacement or maintenance

Designed for the 1911 Kimber in .38 Super, 9mm, .40 S&W, and 10mm, this stainless steel bolt stop provides a replacement solution that meets the manufacturer's standards. It combines mechanical reliability with visual consistency on stainless steel models.

Essential function of the slide stop

The slide stop locks the slide in the rearward position when the magazine is empty and allows for manual release during reloading. Precise adjustment ensures smooth interaction between the magazine and the slide.

Multi-caliber compatibility

This model is specifically sized for the 1911 Kimber in .38 Super, 9mm, .40 S&W and 10mm. Versions in .45 ACP generally have different dimensions.

Durable stainless steel finish

Stainless steel offers excellent resistance to corrosion and wear. It is a suitable choice for maintaining the aesthetics and durability of the 1911 stainless steel models.

FAQ

Is this stop compatible with a 1911 in .45 ACP?

No, this model is designed for .38 Super, 9mm, .40 S&W and 10mm calibers. .45 ACP versions generally use a specific configuration.

Is this an original Kimber part?

Yes, this is a Kimber component that conforms to the manufacturer's specifications for compatible models.

Is the stainless steel finish more durable?

Stainless steel offers good resistance to corrosion and wear, while ensuring aesthetic consistency with stainless steel models.
