KIMZ060	Kimber 1911 White Dot .150" Handlebar	BF769	B	55.50 € incl. tax

.150" front sight with white dot for 1911 with fixed rear sight.

The **1911 Kimber front sight** with a **white dot** , measuring **.150",** is designed for models equipped with a **fixed rear sight** . It improves sight visibility and promotes quick and natural target acquisition.

- **Compatibility** : 1911 Kimber with fixed sight
- **Brand** : Kimber
- **Type** : White dot handlebar
- **Height** : 0.150"
- **Configuration** : Replacement for compatible cutout models

Designed for 1911 Kimber rifles with a fixed rear sight, this .150" white dot front sight provides a reliable replacement or upgrade solution. Its specific height ensures consistent alignment with the original setup.

Height .150" suitable for fixed risers

The 0.150-inch dimension is designed to work with Kimber's fixed sights. Maintaining this height is essential to ensure the point of impact matches the original settings.

White dot for rapid acquisition

The white markings improve the visual contrast between the front sight and the target. In practice, this facilitates alignment with the rear sight and allows for faster target acquisition, especially in varying lighting conditions.

Installation and compatibility

This model is designed for slides machined according to the corresponding Kimber cutout. Dimensional checks and assembly using appropriate tooling are recommended to ensure a precise fit.

FAQ

Is this handlebar compatible with all 1911 sights?

It is designed for Kimber models equipped with a fixed rear sight and a compatible cutout. You should verify the exact specifications of your firearm before installation.

Does the .150" height change the setting?

The height of the front sight influences sight alignment. It is important to choose the correct height for your original setup to maintain a consistent point of impact.

Does the assembly require a gunsmith?

Installing handlebars requires precise adjustments and the right tools. It is recommended to use a qualified professional.
