A flip-to-side mount designed for 30mm magnifiers

The **Scalarworks LEAP/06** is designed to accommodate **Aimpoint** and compatible **30mm** diameter magnifiers. It allows the optic to be quickly flipped to the side to switch from magnified to direct viewing.

Compatibility:

- Magnifier with 30mm body

Precise and durable tilting system

The mechanism relies on a **4 mm** ball bearing system ensuring a firm and repeatable locking action. This system guarantees excellent durability, even after numerous cycles of use.

Three heights for perfect alignment

Available in **1.57" (40 mm)** , **1.93" (49 mm)** and **2.26" (57 mm)** , this mount allows for perfect alignment of the magnifier with your main lens. A key point for ensuring visual comfort and efficiency.

ClickDrive Quick-Detach System

The **ClickDrive** system allows for quick, tool-free assembly and disassembly, while ensuring a reliable **return to zero** . Its compact design minimizes protruding parts and improves handling.

Compact and ergonomic design

With no levers or protruding parts, the **LEAP/06** minimizes snagging and improves handling fluidity. In practice, this translates into better ergonomics in the field.

Lightweight and sturdy construction

Machined from **7075-T6 aluminum** with **4140H steel** components, this mount offers an excellent strength-to-weight ratio. Weighing only **66 to 70 g** , it remains lightweight while ensuring a reliable attachment.

FAQ

Is this setup compatible with all magnifiers?

It is compatible with 30mm tube magnifiers, including Aimpoint models and equivalents.

What height should I choose?

It must match the height of your main lens to ensure perfect alignment.

Does the Quick-Detach system retain the setting?

Yes, the ClickDrive system guarantees a reliable return to zero after disassembly.
