Adds M-LOK interfaces around the handlebars without interfering with the handguard.

The **Leapers UTG PRO M-LOK Light Mount** adds M-LOK interfaces to MP5, SP5, and MAC5-style firearms without replacing or interfering with the handguard. Mounting directly around the front sight, it features slots at the 11, 12, and 1 o'clock positions for a light, remote switch, or other compatible accessory. Its configuration includes five full M-LOK slots and one half-slot. The matte black anodized 6061-T6 aluminum body weighs only 45 grams, minimizing added mass to the front of the firearm. At 123 mm long, this **UTG PRO M-LOK mount** is designed and manufactured in the USA. It is suitable for MP5-style pistols and rifles but is not compatible with K-style short receivers.

- **Brand:** Leapers

- **Length:** 4.86" (123 mm)
- **Width:** 1.56" (40 mm)
- **Height:** 0.67" (17 mm)
- **Weight:** 45 g
- **Made** in the United States

Accessible M-LOK slots around the handlebars

The **Leapers UTG PRO M-LOK Light Mount** offers multiple mounting points at the 11, 12, and 1 o'clock positions. This distribution allows you to choose the position of an **M-LOK compatible light** , a remote switch, or another accessory depending on your desired configuration. The mount has a total of five full mounting points and one half mounting point.

A fastening system that protects the handguard

The mount attaches around the front sight of **MP5** , **SP5,** and **MAC5** type weapons. It leaves the handguard or forend in place, avoiding the need to disturb their mounting interfaces. Tightening must adhere to the specified torques of 10 in-lb for the 1/16" hex screw and 15 in-lb for the T10 Torx screws.

A compact 6061-T6 aluminum bracket

The **6061-T6 aluminum** construction combines a weight of 45 g with a matte black anodized finish. Measuring 123 mm long, 40 mm wide, and 17 mm high, the mount remains compact around the front of the firearm. The firearm must be unloaded and made safe before mounting or adjusting any accessory.

FAQ - Leapers UTG PRO M-LOK Light Mount

What mounting hardware is provided?

The set includes four #6-32 Torx T10 screws, one #6-32 1/16 hex set screw, two O-rings, one T10 wrench, one 1/16 hex wrench, and an instruction manual.

Is this design protected by patents?

Yes. Its design is covered by US patents US 12281873 and US 12410989.
