GECO reliability for sport shooting revolvers

The **GECO .38 Special FMJ Flat Nose** is designed for shooters who use revolvers on fixed targets at short or medium range. Its flat profile allows for accurate reading of impacts and ensures optimal stability thanks to a well-balanced, high-mass bullet.

Controlled stability and power

With an initial velocity of 295 m/s for an energy of 435 J, this ammunition remains efficient up to 50 meters, maintaining constant ballistic characteristics.

- **At 0 m (mouth):** 295 m/s – 435 J
- **At 10 m:** 287 m/s – 421 J
- **At 25 m:** 281 m/s – 401 J
- **At 50 m:** 278 m/s – 373 J

Designed for frequent shooting

The fully jacketed **FMJ Flat Nose bullet** limits fouling and makes the weapon easier to maintain, even during extended sessions. This ammunition is perfectly suited to the needs of regular shooters looking for consistency and shooting comfort.
