Precision warheads haendler and waternmann for competition shooting

Round nose (rn) copper lead bullets for sport shooting.

- Copper-colored lead bullet with additional plastic coating
- avoids bursts and lead deposits
- for all handgun charges, and for reduced rifle charges

- speed level greater than 320 m / s (Vo) (only in handguns)

The sporting success is conditioned by a maximum quality and precision. The H & N warheads combine these two strengths thanks to the successful combination of artisanal dexterity and the most modern production technologies.
