### Precision warheads Haendler and Natermann for competition shooting

#### Ogives high speed

- Copper lead ball with extra layer of plastic
- avoids bursting and deposits of lead

- For all loads and weapons, also suitable for rifle charges

truncated

- For all types of weapons, is mainly used with heavy revolvers but also with pistols.

The sporting success is conditioned by a maximum quality and precision. The H & N warheads combine these two strengths thanks to the successful combination of artisanal dexterity and the most modern production technologies.
